

I am writing in regard to the proposed action that would allow LPFM stations to over-ride or limit my exposure to national programming--in this case most importantly to KLOVE radio.

I am a regular--almost daily listener to KLOVE as are many of my Christian friends. They serve the local community in a very real way and I would urge you not to hinder that broadcast and that service in any way.

KLOVE serves the local community--and the public interest--by being a Christian radio station in a secular world. Many of us in the rural areas would not have access to this Christian music and message were it not for KLOVE and similar programs.

Please don't deprive us of that opportunity.
